CITY OF LOUISVILLE.

WEDNESDAY, DECEMBER 31, 1856.

**A Card.**

The undersigned, anticipating a change of business, desire to dispose of his interest in the Times Office. He has also made an arrangement with his associate by which, if desired by a purchaser, the entire office will be sold.

**WILLARD AND RICHARDSON.**—It is a source of gratification to witness the high esteem with which the gallant champions of the Northern Democracy who have upheld the constitution of the Union and battled so nobly for the equal rights of the States, are everywhere regarded by the true and national men of the South. Willard and Richardson, along with hundreds and thousands of other noble Democrats in the North, covered themselves all over with imperishable fame, in the recent canvas, by the power and fervor eloquence with which they met and repudiated the tide of sectionalism and abolitionism that threatened to overthrow the country and dissolve the Union. Nobly have they earned the thanks of the whole country, but particularly of their willing arms the power of an Ajax for the protection of their constitutional rights. Southern men with Southern hearts will not forget their true and tried allies of the Northern States in that terrible and portentous conflict. Already have they been urged and implored to partake of the hospitality of many of the Southern men and the Southern States. On Tuesday last their was a grand ovation in honor of them at Jackson, Miss., which was largely attended by the nobility and intelligence of the State. We hope our Northern friends will visit the South upon all such occasions. Let them not only go to the towns and the cities, but to the rural districts, and they will soon be confirmed in the conviction that the Southern slave is far better off than his free colored brother in the North.

The Charleston Mercury warmly applauds the South Carolina Governor's recommendation to re-open the African Trade, but says:

"Our objection has been urged strongly against it, privately—that if the trade were re-opened, the New Englanders would monopolize the profits." In the Senate the other day a House bill was taken up to authorize the President of the United States to cause to be procured by purchase or otherwise a suitable steamer to be stationed at the port of New York as a revenue enterer. The bill proposed an appropriation of \$150,000, and was strongly advocated by Mr. Seward, one of the Republican Senators from New York. In the course of the discussion it appeared from the testimony introduced by Mr. S. in support of the bill, that one of the primary objects in having this steamer enter was to be able to arrest suspected slaves. Mr. Toombs, who was also participating in the discussion, availed himself of this point, and turned the tables effectively upon Seward. We are compelled to get new steamers to stop the slave trade in the city of New York, according to the evidence introduced by Mr. Seward. We cannot keep these gentlemen from the African slave trade with all our laws declaring it piracy. A new steamer is required, not on the coast of Africa, not on the coast of Cuba, nor on the coast of the Black States, as they are termed, where it might be supposed they would be required, but we must keep a steamer in the port of New York for the purpose of preventing these extremely conscientious people from dealing in African slaves. Consistency seems to take a turn."

We regret to learn, from the New Orleans paper of the 24th inst., that Col. Thomas F. Hunt, assistant Commissioner General U. S. A., died in that city on the previous evening. We knew Col. Hunt well in the Mexican war, and we knew him to be a brave, true and high-souled gentleman. He was in the 43rd year of his age, and had been in the army forty-five years, having entered under a Lieutenant's commission in 1811. He went to New Orleans on the 21st of November, last year, and in May following returned on business to Cincinnati, where he was assailed by sickness from which he never recovered. Since that last mentioned period, he had been absent at sick leave. Col. Hunt was the second in rank in the Commissariat Department of the United States.

The Collins Line.—E. K. Collins and others, proprietors of the Collins line of steamers, have petitioned Congress to buy the steamers belonging to his ocean mail line and release him from his contract, as he cannot afford to carry vessels of such large and costly ships as the Pacific, Atlantic, and Adriatic for the price originally stipulated, to which he is return on and after the expiration of six months from the time of his appointment. General, by order of Congress, last summer, gave him notice that his extra pay would not be continued. The Washington correspondent of the Philadelphia American and Gazette, says that while the memorial of the Collins line earnestly seeks to dispose of their vessel "without any loss."

The real object is "to get the law of last session renewed, by which the pay was reduced to the original terms, and at the expiration of the same, two years hence, to obtain a renewal, to the same end, and to the government." It is this proposal which would realize the object, and would add a quarter of dollars for the regular service, or more than the aggregate cost of all vessels now afloat, including the Adriatic, which is composed, and would have besides, the whole property at their disposal."

They Would Not Dance.—The Bay State Democrat, in the course of a well written article in relation to the mad antics of the political prints of New England, remarks:

"We entertain a very high respect for them in their appropriate sphere of action. But they seem fit to step aside from appropriate duties and enter the political field. Here they have suffered a defeat, and now they make a great maneuver, and seek the wrong side, where the Lord could not bless their efforts. A friend at our club said that, though they might now very properly adopt the language of the Episcopal liturgy: 'We have done, O Lord, those things which we ought not to have done; but we have repented of the things which we wrought have done!'" But we respectfully suggest that there is a passage somewhere, in the Bible, more appropriate.

The CIVILIZATION OF CENTRAL AMERICA.—Resolved, That the sympathies of this Convention are with the efforts being made to introduce civilization into the States of Central America, and to develop those rich and productive regions by the introduction of slave labor.

Hol for NICARAGUA.—We copy the following from an Extra of the New Orleans Delta of the 23d inst. Ambitious young gentlemen have only to report themselves at the agency office in New Orleans—their passage thence to Nicaragua will be free:

NICARAGUA.—We have been requested to call the attention of those who meditate emigrating to this beautiful country, to the fact that a free passage will be given to all respectable persons applying to the Emigrant Agent, No. 29 St. Charles street, New Orleans. A steamer will leave on the 26th of every month, and two sailing vessels will also be sent off each month if emigrants present themselves in sufficient numbers.

Our exchanges will oblige by giving public notice of the above.—Editor Delta.

It reads, if we recollect aright, something in this wise: "We have piped, and ye have not lamented; There have been no tears, and ye have not mourned; but somehow the world would not dole to that kind of piping. They would not weep, even over the loudest shrieks for bleeding Kansas. New England and New York did, indeed, dance to the ministerial piping, but the Southern pro-slavery Unionists, in sufficient numbers, did not dole. Shall we say that the world is in一片?

It is said that George D. Prentiss, editor of the Louisville, Ky., Journal, is about to establish a daily newspaper in St. Louis.—New York Sun.

Let him establish it. He is no longer wanted in this State.

Mr. Geo. D. Prentiss has sold out his interest in the contract for building the Memphis and Little Rock Railroad.—St. Louis Democrat.

Also his interest in the Cincinnati and Little Rock State Company.

—The Legislature of Missouri was to have begun its session at Jefferson City on Monday last. The probabilities are that it will be a stormy one, as nearly all previous sessions have been. There are four or five candidates for the speakership and the office of Lieut. Governor is contested. The national Democrats will probably settle the matter amongst themselves. The Bentonites and the Know-Nothings might as well stand aside.

It is emphatically a based entirely on the dead and forsworn.—

**ACTION OF THE SOUTHERN CONVENTION.**—The following resolutions with their preamble, embrace a summary of the action of the late Southern Convention, which assembled in Savannah on the morning of the 8th inst., and adjourned on the evening of the 12th. It will be seen that, notwithstanding Louisville was unrepresented, the early completion of the railroad from the Cumberland Gap, to meet the improvements of the State of Virginia and forming a connection between the Chesapeake and the Ohio river, is strongly recommended:

STEAMERS LINE TO SOUTH AMERICA.

—The political delegation presented to the Congress of the United States by Messrs. W. M. Stanton, Samuel L. Mitchell, Wm. H. Webb and Thomas Rainey, representing the North and South Am. steamship Steamship Company, whose stock is owned in the city of Savannah and the city of New York, for a small and reasonable compensation for transporting the mails of the United States from the Atlantic seaboard and the Mississippi valley to the West Indies, Brazil, the Republic of La Plata, and other countries in South America.

Whereas, The line contemplated would prove peculiarly beneficial to the commerce and prosperity of the South by making Savannah the chief city of embarkation of steamers before proceeding to the West Indies, at the first touch of their return to the United States, And,

Whereas, This is the first and only time it has proposed opening direct, rapid and reliable communication with those rich and expanding fields of commerce embraced in the West Indies, Brazil, the Republics of La Plata, the Amazon, and the Orinoco, and Venezuela and New Granada. Therefore,

Resolved, That this Convention respectfully and earnestly recommend the subject to the laudable consideration of Congress.

SOUTHERN FACULTIES FOR MANUFACTURING.

Whereas, The demand for our great staple must be increased by lessening the cost of its production, and the avoidance of unnecessary transportation on the material and fabric. And,

Whereas, There is on and near our cotton plantations the most abundant power in unfailing fall of water, and inexhaustible sources of hitherto unknown to us for the operations of manufacturing, and where the simplest and easiest processes are, and must continue to be, cheap and certain, and where, consequently our cotton could be changed into its most valuable forms with extraordinary facility; and where capital and labor are attracted, and would be within the sphere of influence, if the facts were fully understood at least.

Therefore be it Resolved, That proper measures should be taken, if not by the General Government, but by the Legislatures of the cotton planting States, to obtain and publish all the facts that will throw light on the relative advantages of southern and western localities for carrying on the manufacture, and showing all the elements that enter into the cotton fabric can be brought together, and combined with the least expenditure of capital and labor.

RAILROAD LINE FROM THE CHESAPEAKE TO THE OHIO.

Whereas, The Charleston Mercury warmly applauds the South Carolina Governor's recommendation to re-open the African Trade, but says:

"Our objection has been urged strongly against it, privately—that if the trade were re-opened, the New Englanders would monopolize the profits."

In the Senate the other day a House bill was taken up to authorize the President of the United States to cause to be procured by purchase or otherwise a suitable steamer to be stationed at the port of New York as a revenue enterer. Consistency seems to take a turn."

SOUTHERN SHIP BUILDING.

Whereas, The principal object of this Convention is to encourage and promote southern wealth and development, which will be the basis of home practical improvement in its effect.

Resolved, That in order to encourage ship, boat building, etc., objects of inexpensive and important, that all State and municipal aid and encouragement be given to such home built vessels.

SOUTHERN FAIRS.

Resolved, That it is recommended to the several local and state agricultural and mechanical associations to promote southern fairs at points which shall be accessible to all and that the State Legislature be recommended to make appropriations in aid of such objects.

CANON FOUNDRIES AND MANUFACTURE OF ARMS.

Resolved, That the establishment of foundries and works for the casting of cannon and manufacture of arms should be recommended to the attention of the several Southern States.

SOUTHERN SETTLEMENTS IN CANADA.

Resolved, That the security and honor of the South demand that she should maintain her equals in the Territories of the Union and that she ought to resist at every cost, any attempt whatever made to exclude her from those Territories.

RUSSIAN WAR.—MOSQUITO HALL.—This exhibition was well attended last night, and bids fair to become a favorite, if the applause given may be taken as a guide; the audience must have been highly pleased, for in some of the scenes it was tremendous.

A golden eagle, measuring nine feet from tip to tip of his wings, was shot on Mountain, in Virginia, last week. He has annoyed the farmers by carrying off sheep and lambs, and in one instance, a good sized calf.

HORRIBLE.—A physician of Rochester, an able and skillful man, but one of horrid character, has been arrested under circumstances which leave no doubt as to his guilt; of having seduced a young woman, and brought her to Buffalo, where in attempting to produce abortion, he murdered both mother and child.

RUSSIAN FAIR AND FESTIVAL IN JEFFERSONVILLE.

The ladies of St. Paul's (Episcopal) Church, Jeffersonville, intend having a fair and festival in Metropolitan Hall, in that city this evening—New Year's Eve—for the benefit of their Church. The public are invited. We commend the object to those who desire a pleasant and useful way of spending the evening.

We learn from the Eufaula Spirit, that a

horrible murder was recently committed in Henry County, Alabama, by a negro named Mose, born of the South, in the 43rd year of his age, and had been in the army forty-five years, having entered under a Lieutenant's commission in 1811.

He went to New Orleans on the 21st of November, last year, and in May following returned on business to Cincinnati, where he was assailed by sickness from which he never recovered. Since that last mentioned period, he had been absent at sick leave. Col. Hunt was the second in rank in the Commissariat Department of the United States.

### RIVER NEWS.

The river is open from here to Cincinnati. The Kentucky arrived from Cincinnati yesterday morning, having broken through the ice Six Mile Island. The Emma Dean came down from Carrollton. In the afternoon the Superior, the regular mail line, left for Cincinnati, closely followed by most of the fleet of boats which have been lying at the wharf.

We copy the following items from the St. Louis Intelligencer, of the 27th inst.

We were again writing during the past three or four days, but a number of boats are expected to make their appearance this morning. The river is rising again. During yesterday it swelled ten to twelve inches, caused, we suppose, by the warm weather we had had during the past three days. Since Wednesday morning, the weather has been exceedingly mild for the season, and yesterday it was warm and cloudy, with high temperatures. We have had three or four days during the day. The ice has entirely disappeared from the river, and we know of nothing to keep boats from making their appearance.

A GENTLEMAN who arrived from Cairo this morning, reports the steamers Orleans and J. C. Swan both aground at Bainbridge. Boats are bound for New Orleans, loaded with produce.

LOSS OF THE STEAMER YUBA.—We learn from Captain Kelsey that the steamer Yuba will in all probability prove a total loss. She is aground just below Alviso, while the ice is running very heavy three days ago, and sprung a leak. The water is now six to eight feet deep over the bow, and the boat, it is thought, will break in two.

### BUSINESS NOTICES.

For Teiter, Salt, Rhamn, Barber's Ith, Old Sores, and all eruptions of the skin, nothing, it is said, is superior to Davies' Tetter Ointment. Raymond & Patten are the agents. 74 Fourth street.

THE greatest preservative of beauty known to modern science, is Professor Wood's Hair Restorative and Cosmetic. Among the most important features of female beauty, is a luxuriant head of hair and a fine complexion, both of which should be guarded as a sacred treasure, for either may be lost by neglect, or preserved by the use of the above named article; delay is dangerous. To be had of the agents at 74 Fourth street.

If you want a fine library of yourself go to House & Co.'s National Picture Gallery, 38 Fourth street, between Market and Jefferson, over Talbot's variety store, and get one of those beautiful glass pictures, which for beauty and fidelity of features, expression and drapery, far surpasses any other kind of pictures. Dark drapery produces a more pleasing effect on either children or adults. Dull weather is preferable to bright, except for small children. Children can be taken without fail, in from two to eight seconds.

Prices from \$1.00 to \$15.00. de28

GOOD NEWS! GOOD NEWS!—Coal at one cent per bushel! Who will take a load at this price? We suppose a large number of purchasers of coal could be found at these bids, but not as many as there are for Porter's Oriental Life Liniment. Over five thousand bottles of it have been sold at retail in the last month, at the principal depot of Third street, where the only genuine Oriental Life Liniment can be had. It has been used with success in 300 cases of frost bites during the present winter. The Oriental Life Liniment is sold at twenty-five cents per bottle, and each purchase receives a gift worth ten cents to twenty-five dollars. Among the articles intended for gifts are twenty-five loads of coal; also, an assortment of jewelry, consisting of silver watches, gold pins and earings, gold pens and pencils, fancy work boxes, double barrel shot guns, books, toys, perfume, &c. Now is the time to get Christmas presents cheap. Remember the place, 96 Third street, near the Post Office. de19 mwf

AN ALBANY & SALEM RAILROAD.—DIRECT TO ST. LOUIS AND CHICAGO.—This road is the speediest route to Chicago and the Northwest. Passengers leave the depot at New Albany at 12 M. and arrive at Chicago at 7 o'clock the following morning. This train connects at Terre Haute with the St. Louis and Cairo trains and with all the trains leaving Chicago in every direction.

The road is in capital condition and recently a number of splendid passenger cars have been put on it. An omnibus will call in any part of this city for passengers and deliver them at the depot in New Albany free of charge. This road is one of the best in the country and its management could be no better. It is the cheapest and most expeditious route for Chicago, St. Louis and Cairo. It makes direct connection with all roads and for all points, East, West, and South.

DR. ROBERT'S SCANDINAVIAN REMEDIES.—In directing the attention of our readers to Dr. Robert's advertisement, we have no hesitation in saying that all he claims for his medicine is confirmed by certificates from all parts of the west. The language of these certificates is so earnest and grateful, and the cures refer to such a variety of disease, that it would be folly to question the restorative properties of the preparations. The most certain and speedy cure ever offered in this country. The reputation his medicine has acquired, the certainty of cure whenever it is used, induces us to urge upon all the necessity of paying particular attention to this subject. His medicines are sold by Stewart, Miller & Co., Louisville, Ky.; David Riley & New Albany, Ind.; J. N. Harris & Co., Cincinnati, Ohio.
